Please join us for the Inaugural “Irv Borish Continuing Education Symposium”

Come and celebrate Irv Borish’s life by attending a unique symposium on topics near and dear to the “Father of Clinical Optometry”

**WHEN:** Saturday March 23, 2013 at 9AM  
**WHERE:** SWAIN WEST Room 119  
Bloomington, IN

Come learn the latest clinical techniques, research, and perspective in the following subject areas:

**REFRACTION** (3 hours, COPE Pending)  
- Speakers:  
  - Ray Applegate - 21st Century Objective Refraction – Wave front Error-Is it Overkill?  
  - Lou Catania - New Perspectives on Refraction and Vision Correction  
  - Rowan Candy – The Visual Experience of the Young Hyperope: Emmetropization & Accommodation

**MYOPIA** (3 hours, COPE Pending)  
- Speakers:  
  - Don Mutti – Foveal & peripheral defocus: the current state of myopia control  
  - Earl Smith – Visual Regulation of Refractive Development: Insights from Animal Studies  
  - Chris Clark – Refractive Development Measures with optical Coherence Tomography

**PRESBYOPIA** (2 hours, COPE Pending)  
- Speakers:  
  - Kevin Waltz – Surgical Management of Presbyopia: A Case Series  
  - Adrian Glasser – Accommodation, Presbyopia & Accommodation Restoration Concepts
• Neil Pence/Cliff Brooks – Directions is Presbyopic Spectacle Lens Development/Future of Presbyopic Contact Lens Correction

These internationally recognized experts from research and clinical care will:

1) Provide a background context & lay out our current understanding;

2) Present cases that highlight clinical use of the most advanced ophthalmic lenses, instrumentation & techniques and how it may be incorporated in your practice;

3) Preview new developments and explain how they will change the future of optometric practice.

**CE Credit: 8 hours**

**Cost: $100, includes box lunch and evening reception at Atwater Eye Care Center**
