IUSO Receives State Contract Seat with West Virginia

IUSO is pleased to announce the addition of a state contract seat the with state of West Virginia. This decision was facilitated by the West Virginia Association of Optometric Physicians (WVAOP) and the WV Higher Education Policy Commission. However special thanks needs to go to our own West Virginia students Laura Suppa (3rd year) and Shawn Sammons (2nd year) for their diligence in working with their lobbyist to support such a decision.

This seat will provide a set amount of support for each of the four years of optometry school to a resident of WV who is applying to our Doctor of Optometry program. The recipient will be selected by the Admissions Committee and criteria include GPA, OAT scores, and other application information.
