Dayton VA Medical Center (Dayton, Ohio)  
Supervisor: Rebecca Diller, OD  
The Dayton VA Medical Center provides full scope optometric care within a multidisciplinary hospital setting. The resident provides direct patient care and interacts regularly with three full-time ophthalmology residents and ophthalmology attendings from various specialties. The resident educates fourth year optometry externs, from The Ohio State University and several other optometry schools across the Midwest, through clinical supervision, journal club and lecture presentations. The program includes rotations through various medical services within the hospital. (3 Residents) rebecca.diller@va.gov

Cincinnati VA Medical Center (Cincinnati, OH)  
Supervisor: Kelly Thompson, OD  
The mission of the optometry residency program at the Cincinnati VAMC is to train individuals to be leaders in optometry by having advanced clinical competence, current knowledge, the capacity to practice full-scope optometry within an integrated health care setting, and who have the skills to participate in clinical research and optometric education. (3 Residents) kelly.thompson4@va.gov

Chillicothe VA Medical Center/Chalmers P. Wylie VA Ambulatory Care Center (Chillicothe/Columbus, Ohio)  
Supervisor: Brett Irvin, OD, MS, FAAO  
Residents will receive hospital based training at the Chillicothe VA Medical Center and outpatient based primary care training at the Columbus VAACC. The Chillicothe VAMC is a neuropsychiatric/general medical facility located one hour’s drive south of Columbus. The Columbus VAACC is near downtown in a modern facility that has been designed to meet the primary care needs of central Ohio veterans. (5 Residents) brett.irvin@va.gov

Cincinnati Children's Hospital Medical Center (Cincinnati, Ohio)  
Supervisor: Daniele P. Saltarelli, OD, FAAO  
This residency program is intended for the optometrist interested in developing their skills in the diagnosis and management of children's eye and vision related disorders. Housed within the Division of Pediatric Ophthalmology, this hospital based program offers the opportunity for the practitioner to establish the necessary skills to become an effective member of a comprehensive pediatric eye care team. Cincinnati Eye Institute (Cincinnati, Ohio)  
Supervisor: Kevin Corcoran, OD  
The Cincinnati Eye Institute is the premier eye care referral center in southwest Ohio. Residents will receive training in the treatment and management of ocular disease within nine different subspecialties of eye care which will highlight surgical co-management. (1 resident) kcorcoran@cincinnatieye.com

The Erdey Searcy Eye Group (Columbus, Ohio)  
Supervisor: Kasey Huffman, OD  
The Residency in Ocular Disease at the Erdey Searcy Eye Group is to provide a unique post-doctoral experience, both clinical and didactic, in ocular disease diagnosis and treatment to an exceptional optometric graduate. Graduates of this residency are trained to deliver superlative clinical care, to serve as educators in optometric institutions and within the community at large, and are able to pursue professional opportunities requiring a high level of clinical expertise. Eye Center of Toledo (Toledo, Ohio)  
Supervisor: David Bejot, OD  
The Eye Center of Toledo is a major eye care referral center located in northwest Ohio. Residents will be exposed to a wide range of experiences including the treatment of anterior segment eye disorders, retinal diseases, and glaucoma and will participate in the co-management of ocular surgeries. (1 resident) dlbtecot@yahoo.com

Louis B. Stokes VA Medical Center (Cleveland/Brecksville/Canton, Ohio)  
Supervisor: Stacia S. Yaniglos, OD  
The Louis Stokes Cleveland VAMC is located in the University Circle area of Cleveland, a major medical, educational, and cultural hub. This residency is set within a major, academically affiliated medical center, with rotations to Brecksville extended care/rehab facility and Canton outpatient clinic. Clinical care is the primary focus of this residency, amply supplemented by grand rounds, journal clubs, case conferences, lectures and rotations. Key features of the residency include: multiple residents, major educational and research oriented facility, close cooperation with the Case Western/University Hospitals ophthalmology residency program, and opportunity to manage challenging ocular disease patients. (5 Residents) stacia.yaniglos@va.gov

Ohio Eye Alliance (Alliance, Ohio)  
Supervisor: Scott Young, OD  
The Ohio Eye Alliance is a surgical referral center located in northeast Ohio with three office locations. Ohio Eye Alliance surgeons specialize in anterior segment and refractive type surgeries. Residents will receive training in state of the art facilities and will receive a wide variety of diagnostic and treatment experiences. The resident will oversee student externs during the later stages of the training. (1 resident) syod13@gmail.com
